Start reducing your energy costs now!
Call Dominion Electric Supply Company today to learn more.

Spot Opportunities

PROUDLY STOCKING:

Businesses are struggling to keep pace with rising costs and exploring every avenue to save money. Consider adding, upgrading or replacing your lighting fixtures, ballasts and controls. According to the U.S. Department of Energy, lighting represents 40% of the average commercial buildings electric bill.

To promote and encourage the completion of energy efficiency projects large and small and to help offset some of the project costs associated with them, BGE and PEPCO have developed a cash incentive program. The incentive plans are designed for specific energy efficiency measures which play a vital role in making your business AND building more efficient.

Dominion Electric Supply Company can conduct a simple energy audit to identify the best energy solution for your business. We are part of the BGE Smart Energy Savers Program and the PEPCO C&I Energy Savers Program and can provide experienced technical support AS WELL AS assist you with the application process.

The most recent information on the BGE Smart Energy Savers Program and the PEPCO C&I Energy Savers Program Incentives can found on their websites:
