

THE I.E.C. CHESAPEAKE APPRENTICESHIP & TRAINING PRESENTS:
A.C Motor Theory & Motor Control
“Hands on Seminar”

Training is customized to meet the needs of the students

*At the IEC Chesapeake Odenton Training Facility
 1424 Odenton Road, Odenton, MD 21113*

A 16-Hour Seminar reviewing A.C. Theory and Hands on Motor Control training. This course is designed to provide the student with information regarding modern industrial motor controllers and control systems as needed by the industrial/commercial electrician. Course will provide students with a basic understanding of the operations and applications of A.C. motor controllers. Students will obtain a working knowledge through a laboratory setting of A.C. motor theory as it is actually applied in an industrial setting.

About the Instructor: Tom Patton has over 40 years in the electrical industry with a BS Degree in electrical engineering. He has developed and taught motor and programmable controls to over 1,000 students. Tom is on the Board of Directors of the IEEE, Baltimore Section.
