

Designers' CHOICE Awards

A survey of area designers and architects reveals their industry favorites

This year *Home & Design* introduces the first-ever nominations for our Hall of Fame and Up-and-Coming Professionals. We asked hundreds of area interior designers to share with us those peers they felt had been leaders in design and architecture this past year, as well as those they felt were starting to make their mark in our region.

Designers' CHOICE

Our survey also asked local designers to reveal their favorite industry sources, from trade and retail showrooms to furniture, fabric, tile, carpet lines and much more. While our Designers' Choice survey was strictly confidential, a few participants felt strongly enough to stand by their recommendations in person. We share those with you, along with complete survey results in more than 25 categories, on the following pages.

"I have known Chuck, Jr. and Sr. [of C.G. Coe & Sons] from my days at W.J. Sloane Inc. They either have just what I am looking for in Oriental, or other handmade rugs or they will find it on their frequent market trips. They give excellent service and stand behind every rug they put in my clients' homes."
